

Bitcon Productions

Music Selection Worksheet

Please fill out all sections that pertain to your wedding. You are responsible for providing the studio with a CD of any music selection that we do not have in our collection. You can find a list of our songs on our website www.BitconProductions.com under the Resources Tab. If there are any problems with any of your selections, your editor will contact you. Please call the studio with any questions or if you need help choosing your music.

Baby Pictures (if applicable): _____

You may choose to include your photos in the same song with your preparation or your guests' arrival at church.

Bride's Preparation (if applicable): _____

This section is included in Plans One and Two, or you may have added it. A slow, romantic type song works best here.

Pre-Ceremony: _____

This is included in all of our packages. This montage will include shots of your ceremony location and guests arriving.

Photo Session: _____

Cocktail Hour: _____

Sometimes, the photo session and the cocktail hour can fit into one song. When selecting this song, think of it as a back-up song. This song is usually upbeat.

Reception: _____

This song should be a fast paced song possibly used to create a montage of your guests dancing.

Recap: _____

This "highlights of the day" montage is included in all of our packages except Plan Four. Choose a very special song for this section of your video. Many times couples choose their wedding song.

DVD Menu: _____

This song will play in the background when you first put your DVD in the player. If no song is chosen, we will use an instrumental song.

Other: _____

If you have added credits or honeymoon pictures, this is the song we will use. Otherwise, choose an extra song anyway, just in case.
